## **Battlefields Tour**

**May 19 – June 1, 2019**

**It has been written that the Great War of 1914-1918 was the greatest moral, spiritual, and physical catastrophe in history – a catastrophe whose consequences are still with us 100 years later. Nowhere are the physical scars of that war more visible than on the battlefields and in the villages of Flanders and northeast France.**

**Led by battlefields expert Frank Jordan of Orinda, CA, you are cordially invited to join a fascinating fourteen-day, thirteen-night journey across the Flanders, Artois, Somme, Aisne, Marne, Champagne, Meuse-Argonne, Verdun, and St. Mihiel sectors of the Western Front. We'll explore front line trenches, mine-craters, forts, bunkers, destroyed villages, and world famous battlefields, as well as witness scattered ordnance of a century-past and seemingly endless memorials and cemeteries.**
